 considerable fog and sunshine
 normal. The rain has been
 falling to those sections that
 suffering from drought and the east-
 wind have advanced the growth
 of crops and fields. Newly seeded
 crops given a good start, and
 old crops have made a good
 start. But it has been decidedly in-
 favorable for grain and potatoes. The rust
 has struck the potato vines in
 some states and vines that one
 were green and fresh are now
 dead.
 The crop is forward enough
 to be affected very much, but not is
 it, is, indeed, getting general
 of severe as yet.
